Subject: RE: Tradebe Draft Permit Renewal

Mike,

The State RCRA permit was expired in December 2016. The State RCRA permit is attached.

[REDACTED]

Jae

Subject: Re: Tradebe Draft Permit Renewal

Jae, as promised, below is ETC's legal rationale for filing a citizen suit which was communicated to us last week.

Can you please let us know when Tradebe's permit expires (or when it already expired), and whether there was a more recent inspection at the site, either by epa or the state, subsequent to the neic inspection in November of 2014?

Can you also provide us a copy of their existing rcra permit (you previously sent me their title v permit - I don't recall seeing their rcra permit - my apologies if you already provided that)

thanks!

"RCRA Section 3007 requires the Administrator or authorized state "to thoroughly inspect every facility for the treatment, storage, or disposal of hazardous waste for which a [RCRA] permit is required" at least every two years. RCRA uses the word "shall" which makes this inspection requirement a mandatory, non-discretionary duty. Upon information and belief, EPA has not conducted a RCRA inspection of the thermal desorption units (TDUs), nor has the State of Indiana.

In addition, RCRA Section 3005 requires a permit for the thermal treatment and disposal of hazardous wastes in the TDUs, and the regulatory exemption for recycling units does not apply. Because the facility does have a RCRA permit for its other hazardous waste activities, but not for thermal treatment and destruction of hazardous wastes in the TDUs, the Administrator also has a non-discretionary duty to revoke the facility's RCRA permit. RCRA Section 3005(e) provides: "Upon a determination by the Administrator ... of noncompliance by a facility having a permit under this chapter with the requirements of this section ..., the Administrator ... shall revoke such permit." The facility is in noncompliance with the requirements of RCRA section 3005 to obtain a RCRA permit for operation of the TDUs or to include the TDUs within its current permit. RCRA Section 3005(e) uses the word "shall" which makes permit revocation a mandatory, non-discretionary duty.

EPA can satisfy its non-discretionary duties under RCRA by conducting a thorough inspection of the TDUs' operations and including the TDUs within the facility's current or renewed RCRA permit. We believe the facility's RCRA permit is scheduled for renewal this year."

Subject: FW: Tradebe Draft Permit Renewal

IDEM informed us that they are planning to issue tentatively a draft permit to Tradebe in February 2017.

As I indicated before, Tradebe would submit their response for our information request in middle February.

Subject: Tradebe Draft Permit Renewal

I am tentatively planning to issue Tradebe's Draft Permit Renewal by the end of February 2017. I will let you know if we are significantly delayed.

Thanks,

Ruth
